**The 5-DayTraining Course will cover the following:**

- **Practical understanding of Occupational Hygiene and the Occupational Hygienist.**
- **How to identify potential health hazards and their sources in the workplace.**
- **Understand the basics of exposure assessment, measurement processes and control methods to be used in the workplace.**
- **How to manage and advise on workplace health issues and manage occupational hygiene programmes as well as be legally compliant with the OHS Act.**
- **To provide a foundation in which further in-depth studies of individual occupational hygiene subjects can be undertaken**

**What is Occupational Hygiene?**

***'Occupational Hygiene is the discipline of anticipating, recognising, evaluating and controlling health hazards in the working environment with the objective of protecting worker health and well-being and safeguarding the community at large. '* IOHA**

**Who should attend?**

**All Hygienists and all persons involved in the health, safety and/or environmental management of a company, as well as any interested parties are invited to attend.**

**Why the need for Occupational Hygiene?**

**Good occupational hygiene benefits employees and industry by**

- **Improving employee's health, lowering social and healthcare costs, and increasing life expectancy;**
- **Fewer people leaving employment early through injury or illness;**
- **More efficient working processes with technological improvements will boost staff morale and maximize the potential of employees, thus increasing productivity.**

## FURTHER INFORMATION FOR YOU . . .

---

**The British Occupational Hygiene Society (BOHS) is the awarding and examining body for OHTA modules. The international scheme recognises three levels of qualification:**

- **FOUNDATION LEVEL**
  **Foundation Course:**
  - **W201: Basic Principles in Occupational Hygiene**
    This is a practical understanding of Occupational Hygiene and the Occupational Hygienist, and how to identify and manage potential health hazards and their sources in the workplace.

  The course is open to all persons – especially beginners - involved or interested in the health, safety and/or environmental management of a company.
  For those who have successfully completed the W201 course and examination, an international certificate in Occupational Hygiene Basic Principles will be issued: Award of Successful Course Completion

- **INTERMEDIATE LEVEL**
  **Intermediate Courses:**
  - **W501: Measurement of Hazardous Substances**
  - **W502: Thermal Environment**
  - **W503: Noise – Measurement and its Effects**
  - **W504: Asbestos and Other Fibres**
  - **W505: Control of Hazardous Substances**
  - **W506: Ergonomics Essentials**
  - **W507: Health Effects of Hazardous Substances**

  For those who have successfully completed the technical knowledge and practical skills needed to undertake occupational hygiene in the workplace courses and examinations, the International Certificate in Occupational Hygiene (ICertOH) will be issued.

- **ADVANCED LEVEL** for those who achieve the levels of knowledge and skill expected of a professional hygienist. This normally requires an academic qualification.
